

Introducing the OneHome mobile app

Available now in the App Store and Google Play

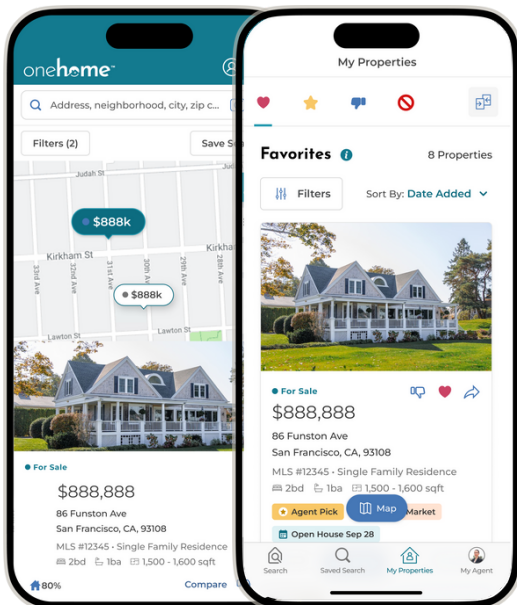

Over 85% of OneHome traffic comes from mobile devices. People love to search for homes from the convenience of their phone.

The OneHome mobile app is now available to all your clients. If you've invited them to OneHome, and they've created an account, they can download the new mobile app and start using it today!

With its user-friendly interface, the OneHome app gives your clients an intuitive and familiar experience, equipped with features they know from the web version.

The same home search tool your clients know and love, now in an app!

- Robust search capabilities
- Detailed property & neighborhood info
- Smart filters
- Save Favorites
- Estimated monthly costs
- And much more!

The new OneHome app is the first step in providing your clients with a better mobile experience. With a proper native app, there are exciting new engagement and collaboration features coming in future updates.

OneHome is the industry's exclusive agent-invite search portal. Ranked #1 in repeat visits amongst top national portals, OneHome is a favorite of homebuyers. If you haven't invited your clients to use it yet, now's the time!

Invite your clients to download the app today!
